The Importance of Summer Reading

Think about it this way: what happens when you show up to a marathon without having trained for it? Imagine how hard that would be! How fast you’ll run out of breath! How much extra effort you’ll need to put in to catch up to your peers who’ve trained for it! Studies have shown time and again that students who don’t read over the summer lose up to three months of progress in literacy skills, putting them at an academic disadvantage in the fall. In order to prepare for the amazing feats of literacy of the coming school year, you are tasked with summer reading assignments that will give your brain muscles exercises to keep them strong, sharp, and ready to take on the academic heavy lifting in all your classes in which literacy skills are vital to success.
